

How to Submit Your W1AW/4 log for VOTA

After your final activation of W1AW/4 for the week, upload your W1AW/4 log. Please do this as soon as possible to allow for time to correct any upload errors.

Check your logging program and ensure it contains your stations Grid Square, CQ Zone and ITU Zone. Use your logging program to generate an adif file for the W1AW/4 activation. A suggested file naming protocol is to include your call sign, VOTA, and Year in the file name (i.e.: N4XL_VOTA_Feb23.adif). That allows both you and the Event Coordinator to tell at a glance the file is for W1AW/4, what operator the log is for, and what time period it covers.

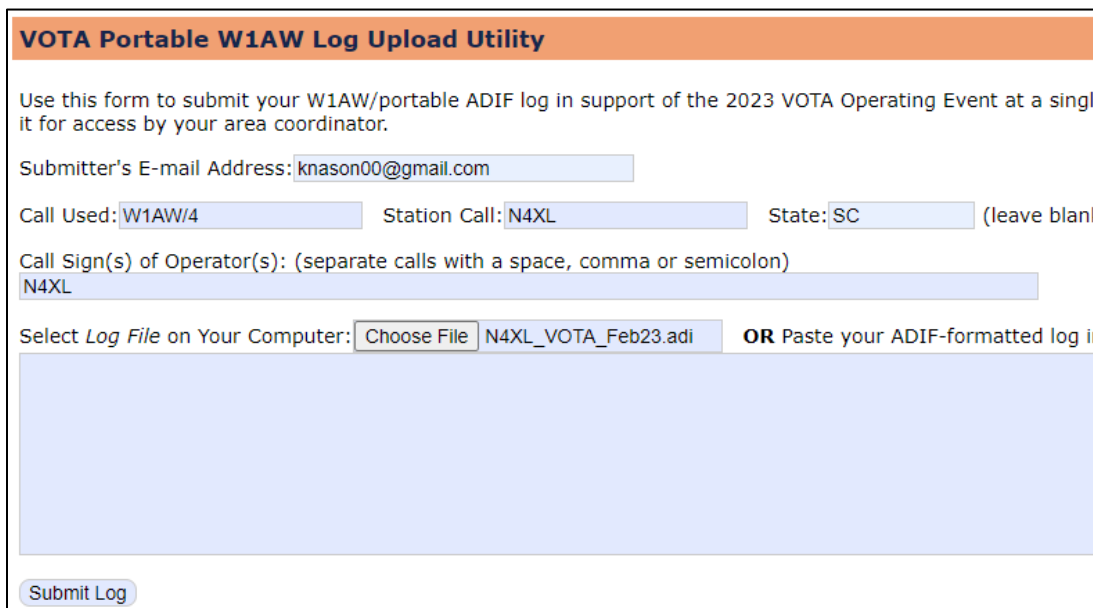

Navigate to <https://contests.arrl.org/votalogutility.php?p=votalog>

The screenshot shows the 'VOTA Portable W1AW Log Upload Utility' form. At the top left is the ARRL logo with the text 'VOLUNTEERS ON THE AIR 2023'. The form title is 'VOTA Portable W1AW Log Upload Utility'. Below the title is a paragraph: 'Use this form to submit your W1AW/portable ADIF log in support of the 2023 VOTA Operating Event at a single location. It will check your log for proper formatting and completeness before saving it for access by your area coordinator.' The form contains several input fields: 'Submitter's E-mail Address:' (empty), 'Call Used: W1AW/area' (empty), 'Station Call:' (empty), 'State:' (empty) with a note '(leave blank if location not a state)', and 'Call Sign(s) of Operator(s): (separate calls with a space, comma or semicolon)' (empty). There are two options for submitting the log: 'Select Log File on Your Computer:' with a 'Choose File' button and 'No file chosen' text, and 'OR Paste your ADIF-formatted log into the text area below:' followed by a large empty text area. A 'Submit Log' button is at the bottom left. At the bottom right, there is small text: 'Send comments or questions about this page to vota@arrl.org. Version: 1.0.0d, Revised: December 29, 2022. Copyright © 2023 American Radio Relay League, Inc., All Rights Reserved.'

Fill out fields, attach log using "Choose File", then click on "Submit Log".

NOTE: By default, N1MM generated adif files are placed in Documents\N1MM Logger+\ExportFiles

This screenshot shows the same 'VOTA Portable W1AW Log Upload Utility' form, but with several fields filled out. The 'Submitter's E-mail Address:' field contains 'knason00@gmail.com'. The 'Call Used:' field contains 'W1AW/4', 'Station Call:' contains 'N4XL', and 'State:' contains 'SC' with the note '(leave blank if location not a state)'. The 'Call Sign(s) of Operator(s):' field contains 'N4XL'. The 'Select Log File on Your Computer:' section shows the 'Choose File' button selected, and the filename 'N4XL_VOTA_Feb23.adif' is visible next to it. The 'OR Paste your ADIF-formatted log into the text area below:' section is still empty. The 'Submit Log' button is at the bottom left.
